Microsoft 365 Security & Protection

Microsoft 365 Security & Protection is a powerful tool for any business, fortifying the Microsoft 365 tenant with policies and settings that are optimized to serve your organization better. With IT Weapons, you can rest assured that your organization's security posture is taken seriously as you will receive daily Microsoft 365 risk reports as well as regular Microsoft Secure Score updates. The solution also provides quarterly reviews with security experts to enhance your Microsoft 365 security posture, along with reporting capabilities that alert our team of any potential threats.

HAVE YOU CONSIDERED THESE QUESTIONS REGARDING YOUR MICROSOFT 365 TENANT'S SECURITY?

- ◆ Do you know how well your Microsoft 365 Tenant security policies are protecting your business?
- ◆ Are the "out-of-box" configurations still in use?
- ◆ Have you configured the critical security controls available in your Microsoft 365 tenant?
- ◆ Do you periodically review and make tweaks to your Microsoft 365 security posture according to Microsoft's latest updates and recommendations?
- ◆ Are you able to consistently troubleshoot security incidents that arise through Microsoft 365?

With Microsoft 365 Security & Protection service, you benefit from:

◆ *Streamlined Management:* Have peace of mind knowing that your Microsoft 365 tenant follows industry best practices, is proactively updated as new threats emerge and has policies optimally implemented to maximize benefits to your users.

◆ *Enhanced Preparedness & Visibility:* Continuous monitoring and reporting enable stronger insights and better decision-making. Our quarterly security expert meetings further bolster your security readiness roadmaps.

◆ *Ongoing Security & Compliance:* Don't worry about policy drift as well as new guidelines from Microsoft as we continuously monitor and optimize policies and updates to ensure that your Microsoft 365 tenant is inline with all necessary compliance requirements.

STAY PRODUCTIVE, STAY SECURE

Our solution is designed to reinforce your Microsoft 365 tenant by optimizing Microsoft's built-in security features and delivering quaterly expert reviews along with the following benefits:

Secure Weak Entry Points

◆ Prevent dangerous links within emails from causing harm to your Microsoft 365 tenant

◆ Use Azure MFA to secure admin accounts and prevent data loss from stolen passwords

Stop Malicious Threats

◆ Reduce spam, phishing and malware attacks that can threaten your business

◆ Stop malicious files from spreading across SharePoint Online and OneDrive

Be Ready for Incident Response

◆ Enable additional audit records for faster forensic analysis and issue resolution

◆ Regularly review and improve security with IT Weapons security experts
