ITW Assessments

DELVE DEEP INTO YOUR ORGANIZATION'S IT INFRASTRUCTURE TO ENHANCE BUSINESS CRITICAL OPERATIONS

Your IT infrastructure plays a vital role for your business' productivity but as systems become more complex, hidden vulnerabilities and risks can emerge to bring down your business. Regular assessments, either across your IT setup or within certain areas, can give you a detailed view into your existing IT environments and opportunities for improvement.

How our Assessments can help your organisation:

By carrying out a comprehensive audit of your existing technology infrastructure, our Assessments can:

- Identify critical and potential vulnerabilities in your infrastructure

- Highlight areas where current systems fall short in meeting business requirements or leverage new technologies effectively.

- Provide valuable insights to make informed decisions about your Technology Modernization Strategy.

- Measure the maturity of IT environments.

Our Assessment Include:

1. Comprehensive Assessment: A detailed and in-depth audit of an organization's existing technology infrastructure including network, security, virtualization, Active Directory, Microsoft 365 Tenant and more.

2. Health Checks: An evaluation of the current state and performance of an organization's IT infrastructure relative to industry accepted standards and best practices. These assessments are available in the following editions:

a. Microsoft Azure Health Check

b. Microsoft 365 Tenant Health Check

c. Network Health Check

d. Virtualization Health Check

e. Domain Health Check

f. Security Posture Review

3. Workshops: An engagement to explore new technologies through agenda-driven sessions conducted by our subject matter experts. These assessments are available in the following editions:

a. Copilot for Microsoft 365 Readiness Workshop

b. Microsoft Teams Workshop

c. Secure Hybrid Work Workshop

4. Design Sessions: A collaborative engagement between the client and our experts to develop a solution the client wants for their organizations.
